PROFESSIONAL SUMMARY

Data Science & AI professional with 1+ years of experience in machine learning, deep learning (ANN), and ETL pipelines for real-world applications. Skilled in Python, Pandas, NumPy, Scikit-learn, TensorFlow, and building interactive dashboards using Power BI and Tableau. Experienced in predictive analytics, NLP, computer vision, and working with MySQL & MongoDB to deliver data-driven solutions. Proficient in data preprocessing, feature engineering, and model optimization for scalable AI solutions.

SKILLS

- Programming & Core: C/C++, Python, Data Structures & Algorithms, OOP
- Data Science & ML: Machine Learning, Deep Learning (ANN), NLP, Feature Engineering, Model Evaluation
- Data Processing: ETL, Data Cleaning, Data Transformation, Data Modeling
- Visualization & BI: Power BI, Tableau, Dashboard Development, KPI Reporting
- Database: MySQL, MongoDB, SQL (Joins, Aggregations)
- Web & Backend: HTML, CSS, JavaScript, ReactJS, Node.js, PHP, FastAPI
- DevOps & Tools: Git, CI/CD, Docker, MS Project
- Soft Skills: Problem-Solving, Analytical Thinking, Time Management, Leadership

EXPERIENCE

We RNS IT Solution Limited, Jaipur, Rajasthan

Data Scientist & AI Trainer / Developer

May 2025 – Present

- Engineered** and deployed machine learning models for real-world business analytics, improving predictive accuracy and operational efficiency.
- Enhanced and fine-tuned deep learning models, including Artificial Neural Networks (ANN), for classification and prediction tasks.
- Conducted training sessions and mentored students/professionals on Data Science, Machine Learning, Deep Learning, and SQL.
- Performed end-to-end data analysis including data preprocessing, feature engineering, and visualization using Python, Pandas, NumPy, and Power BI.
- Constructed** interactive Power BI dashboards for business intelligence, reporting, and KPI tracking.
- Architected and deployed AI-based solutions using neural networks and NLP techniques.
- Collaborated on R&D projects to enhance automation and decision-making using AI/ML technologies.
- Provided hands-on experience with real-world datasets, including model training, evaluation, and deployment in production environments.

Aaimaa Solutions LLP, Jodhpur, Rajasthan

Data Administration

Jun 2024 – Aug 2024

- Structured** and managed MongoDB databases, implementing CRUD operations, indexing, and efficient query handling.
- Created** a secure web application with authentication, authorization, and validation mechanisms.
- Developed backend logic and conducted database-driven testing to ensure data integrity and application reliability.
- Delivered** a Plant Nursery web application with dynamic product listing, cart functionality, and order management.
- Integrated frontend and backend components using REST APIs, ensuring seamless data flow and efficient client-server communication.
- Designed normalized relational schemas in MySQL, wrote complex SQL queries (joins, aggregations), and optimized query performance.

PROJECTS

Real-Time Hand Gesture Detection

Python, OpenCV, TensorFlow, SSD MobileNet v2, TensorFlow Lite, Deep Learning, Computer Vision

- Planned** and executed an automated image data collection pipeline using OpenCV and Python.
- Built** and trained a deep learning model using TensorFlow with SSD MobileNet v2 architecture.
- Streamlined** and converted the trained model using TensorFlow Lite for efficient deployment.

EV Insights Dashboard

Tableau, Dashboard Development, Data Cleaning, Data Modelling, KPIs

- Processed and cleaned a large dataset of 150,000+ electric vehicle (EV) records using SQL and Python, preparing structured data for analysis and visualization.
- Created** an interactive Tableau dashboard with geospatial maps and trend charts.
- Analyzed data and delivered insights to uncover key trends, growth patterns, and regional EV adoption.
- Applied data preprocessing and feature engineering techniques to enhance data quality and improve analytical insights.

EDUCATION

MBM University, Jodhpur, Rajasthan

Sept 2021 – Sept 2025

Bachelor of Engineering in Information Technology (CGPA: 8.10)
